

What does the client SAY

- The problem is we & has many topics included
- option to donate
- website highlights events
explains things
reports about (potentially)
- big pictures at the bottom
- pictures missing at one page
- Database for organizations & blog
- booking, send people information

What does the client DO

- weekly blog & environment reports hub
- repair cake for broken things
- smoshlab for kids
- recruiting volunteers
- start small & then do more

What User is this?

Rob

What does the client THINK

- Advertising is really important
- How can we raise awareness?
- work & volunteers must be highlighted
- there is more that can be done with a better working website

What does the client FEEL

- wants to motivate people to do more for the environment, raise awareness
- current website is not sufficient to refer to for people who need help
- Process should get easier for customers & users

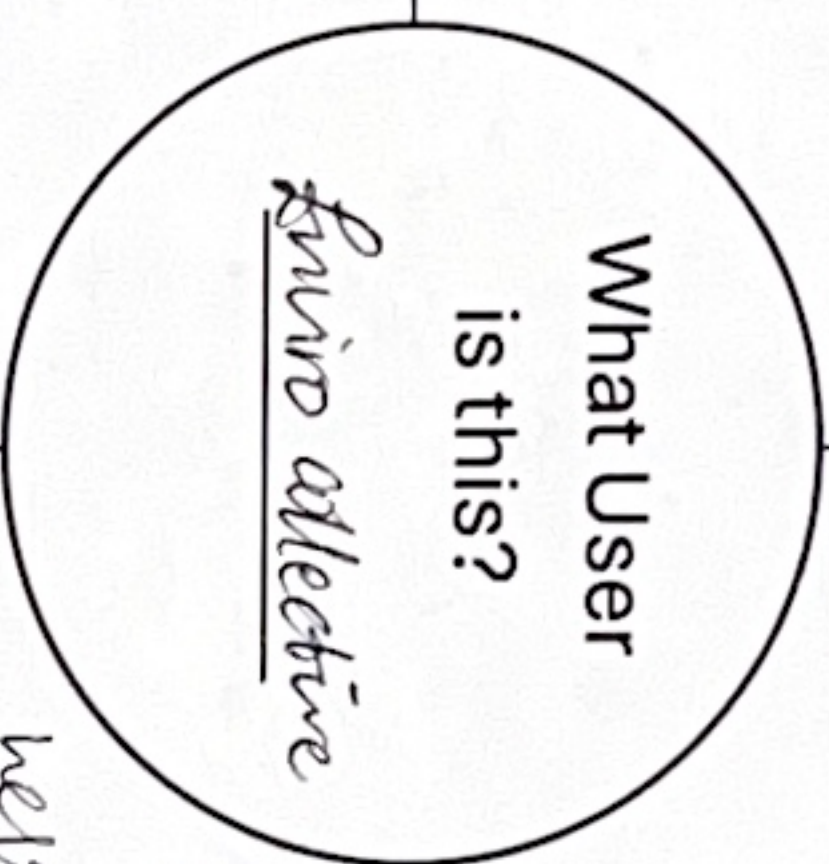

Pain feelings

- Topic is too huge to cover all aspects
- Booking system does not work properly

Gain feelings

- repair cake is popular & talking things about

What does the client SAY	What does the client THINK The client thinks their^{his} website is good but graphics and visuals are really fun. Client thinks their booking online booking's really bad.	
What does the client DO He is a recruiter	What does the client FEEL He feels graphics would really help the website, but not as much as apps wants graphics & visuals	
Pain feelings Online booking is bizarre	Gain feelings	

What does the client SAY

- people don't reuse/recuporse enough

What does the client THINK

What User
is this?

What does the client DO

- environmental sustainability

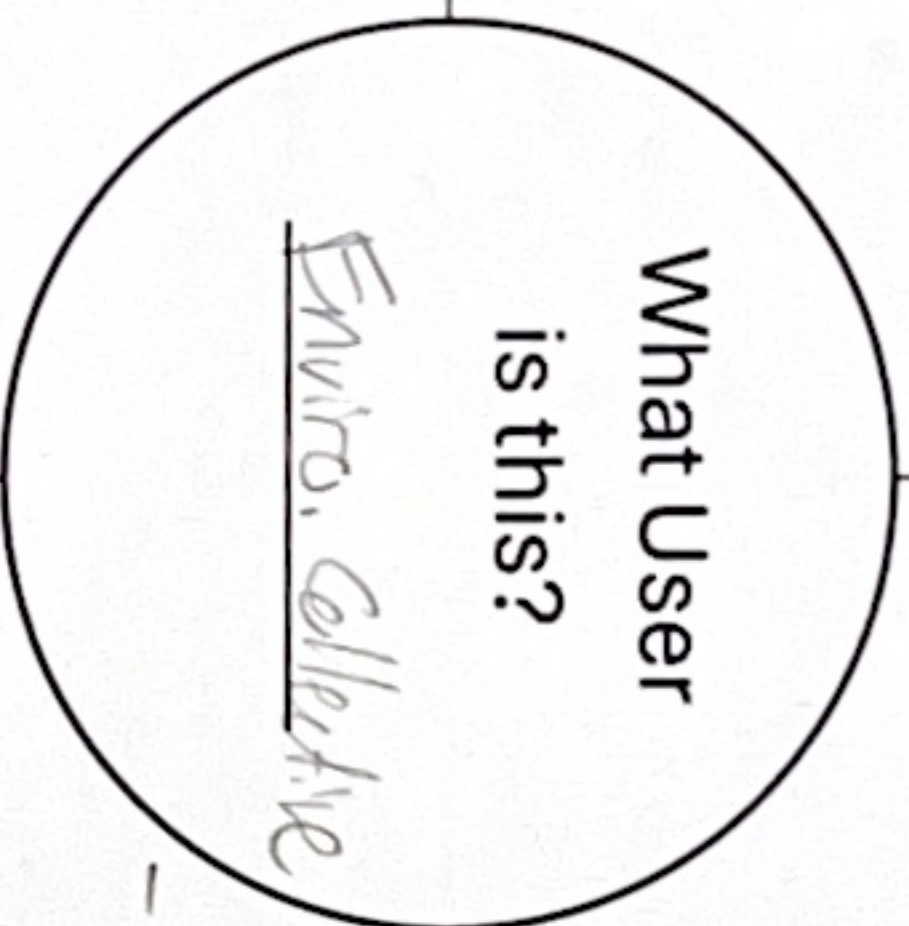

What does the client FEEL

- They want to lessen the act of throwing things away rather than recycling/recuporsing

Pain feelings

Gain feelings

What does the client SAY - Very info sustainability - Supports protests - Lots of community work + educating each other - Need to recruit - People need to be introduced to the small stuff first - Wants to combine other sites ~ links to research + resources - Search for it	What does the client THINK - How do we help these small groups? - Sustainability is important ~ Also overwhelming ~ make it fun! + communal!
What does the client DO - Host youth + adult forums - Hub for ideas + info - Blogs + news letter - Working w/ other groups - Repair Cafe ~ helping people repair their things - Smashlab - Offer micro grants for projects	What does the client FEEL - Community + Teamwork - Wants big graphics ~ less text heavy - Integrated booking software ~ slots as well ~ send email instructions - Involuntary ~ have asset tags ~ we could use _____ for donation - Volunteer info - include all info if they have a business
Pain feelings - Bizarre booking system - Little to no graphics	Gain feelings - Wants searchable database (mainly 4 pillars for) - Sort website ~ Calgary climate hub - Add donation tab

website - environmentalism

Affinity Repair Cafe - bunch of people come together every week to fix anything.

What does the client SAY		What does the client THINK	
- Their organization: What Views about things happening in Regain on sustainability and such. * Climate Change - Help people fix things (stuff) instead of throwing them away. - <u>Pollinator</u> - Vlog that goes out every month to new letter.		- How do we want our website to be friendly and easy to browse? - They want to highlight their <u>Volunteers</u>.	
What does the client DO		What does the client FEEL	
Chair - *Affinity Repair Cafe * Environmental Collective ↳ <u>Pollinator</u> E-newsletter.		Needs a searchable database ↳ Broken online booking <u>it</u> - thing about it. ↳ Combine all their websites - they are currently fragmented and scattered everywhere	
Pain feelings		Gain feelings	
- Hard and dense with content ↳ to scroll / browse around. - Broken online booking.			

What does the client SAY	What does the client THINK
Reusing and recycling items. Explaining what the "repair cafe" does.	How to fix the Climate Problem How to spread their methods fix their own appliances instead of using a more costly solution
What User is this?	
What does the client DO Be clear of the organisation to fix climate change. Helping recycle and fix appliances that doesn't work.	What does the client FEEL Curiosity, Inspiration, happiness
